### **BATTERY OPERATED THERMALLY ACTIVATED HIDDEN DVRS**

#### **Thermally Motion Activated**

No more power cords required! Our totally portable DVRS can quickly be placed in any location without the worry of AC outlets or extension cords. Featuring 1 year standby power and over 20 hours of recording per charge. As soon as "body heat" is detected up to 30 feet away, high resolution (640 X 480) video is recorded on a hidden SD card. Recording continues until 1 minute after motion ceases, then unit automatically returns to standby mode.

**These DVRS come in several different styles.**

#### Specifications:

- 640 x 480 VGA High Resolution @12~ 1 fps (User select.)
- MPEG4 (30fps real time video) Resolution 320 X 240
- Low Light Color CCD 450 LOR Camera .05 Lux
- PIR Motion Activation
- 1X,2X,4X,8X,16X,32X Playback Speeds
- Embedded Time/Date Stamp
- Supports up to 32Gb SD card (160 Hours Video @30fps)

### **SMOKE DETECTOR CAMERA & DVR**

## **NEW** Tattletale Alarm System

The **new way** to protect ANYTHING, ANYWHERE, ANYTIME!

The Tattletale alarm system is the world's first and only portable, digital cellular security system with high performance wireless sensors. The system is completely do-it-yourself (DIY)

and can be unpacked and activated with tattletale's central alarm monitoring service and armed within minutes. Tattletale makes the call to NMC Dispatch without a telephone line using cellular wireless transmission to report an alarm event.

- 900 MHz spread spectrum transmitters provides 2000 feet of wireless coverage for sensors programmed to a base unit
- Battery saving features provides 3-5 years of battery life with most sensors
- No wires to run, cuts install time to a matter of minutes
- System is completely portable, take it with you wherever you need it

### **MULTIPLE SENSORS AND ACCESSORIES**

Indoor Motion Detect

Glass Break Sensor

Door/Window Contact

Outdoor Motion Detect
